

**Building Foundations For Life**

**August 23, 2021**

Dear Dr. Roberts,

Prepared for you are some comments concerning your yearly Evaluation completed by the Millcreek Township School District Board of Education.

We have had a great academic year, under your leadership, during the past unusual and challenging year. The Board specifically commends you on your efforts and proactivity leading the Millcreek Township School District through a year of learning in the COVID-19 Pandemic.

In the past year, under your leadership, our district has been successful in many ways despite the challenges of the pandemic.

- Schools were safely opened to our students 4 days per week far in advance of other districts doing so
- Students were given options to attend school in person or virtually to help larger numbers of parents and students feel safe and to have options
- Communication has been greatly improved between and among all stakeholder groups
- Surveys have been conducted in a genuine spirit of collecting and valuing input
- Town Hall meetings were instituted each quarter
- School board meetings are now available on Zoom and YouTube
- Instructional Leadership includes changes to hire new positions and modify job descriptions to build capacity in our administration, teachers, and staff.

In addition, Dr Roberts, you are the epitome of professionalism and integrity. We are grateful for the opportunity to work with you, your team, and to support all stakeholders in Millcreek.

The MTSD Board of Education is pleased to acknowledge that you have achieved the ranking of **Meet All Expectations** for the 2020-2021 school year.

Sincerely,

Gary J. Winschel,  
MTSD Board President
