

The FirstView real time tracking application will be available for all Millcreek Township School District Public school parents/guardians. The FirstView App is not currently available for Charter or Private/Parochial families. The FirstView app will allow a parent/guardian to track their Child's/Children's bus/buses in real time. One of the main goals of the Millcreek Township School District is to keep striving to improve the methods that we use to communicate with our parents. We will be communicating delays due to weather, mechanical problems and other unforeseen situations through the application. We will also communicate through the FirstView App, if your child's/children's bus number has changed for a day. We will continue to use the FirstView App, because it is the most effect/efficient way to forward information to our parents/guardians. We will no longer be emailing/calling, parents/guardians with bus delays. We as a District are recommending to wait till August 24, 2019 to download/register on the FirstView app.

Thank You,
